Lighting the Way
for Project Professionals

Project Management Institute (PMI)

is the global authority in project management, committed to advancing the project management profession.

Our Purpose—our reason for existing for 50+ years—is our belief that maximizing project success elevates our world. And everything we do, from supporting a global community over a million strong, to innovative offerings that help improve project outcomes, to gold standard certifications that further the careers of project professionals, is focused solely on that purpose.

Project management is an in-demand skill that delivers impactful outcomes to strategic initiatives across a vast number of industries. We support the careers of those who are already in project roles, and light the way for those aspiring to become a project professional.

"What excites me about projects... is you create something out of nothing—and your work has impact. It has significance in the world."

Innocentia Mahlangu, PMP
